It pays to practice with AppleCare Medical Group

Join a network of over 900 primary care physicians and specialists in Southeast L.A. and Orange Counties.
AppleCare provides physicians the necessary support services to navigate health care’s changing landscape while maintaining their independence and autonomy in the delivery of compassionate patient care.

By joining AppleCare, you will discover a group of like-minded medical professionals that share your vision of helping through healing and appreciate the challenge of working with and improving the health of your patients. We invite you to become a part of a team of dedicated medical professionals providing quality, compassionate care to patients in an environment that empowers and rewards you for your dedication and effort.

We invite you to become a part of a team of dedicated medical professionals providing quality, compassionate care to patients in an environment that empowers and rewards you for your dedication and effort.

Maintaining an independent physician practice in today’s health care world can be challenging. Technology and reimbursement are changing in ways that make it difficult for small practitioners to manage and compete.

AppleCare wants to support independent practice with a variety of tools and opportunities, such as new payer relationships and brand and marketing alignment. Our alignment with the Optum brand means we have resources to help grow our affiliated physician groups. We work directly with independent brokers to help them understand the added benefits of AppleCare for the patients they enroll.
Unparalleled physician practice support

AppleCare can provide their affiliated practices with an array of practice solutions to help streamline operations and maximize your bottom line.

- **Practice management / Electronic health record consulting:** We can help choose a product and support you through implementation, including locum support.

- **Concierge practice support:** Our practice coaches can help assess your workflow and optimize your staff’s time by recommending process changes that make your practice more productive.

- **Financing:** Optum Bank™ provides financing opportunities for health care providers for the building and expansion of their practice, the acquisition of equipment, and the stabilization of their operating expenditures.

Partnering with most leading health plans

As AppleCare adds contracted payers, it opens your practice to insurers that you may not contract with today. It also streamlines operational processes for payers that you may already contract with by consolidating your patients within the network that works for you. We contract with most leading Medicare Advantage, Medicare & Medi-Cal plans, commercial and Covered California.

**Plans we work with:**
- Alignment Health Plan
- Anthem Blue Cross
- Blue Shield 65 Plus
- Blue Shield 65 Plus Choice Plan
- Care1st Health Plan
- Easy Choice Health Plan
- Health Net
- Humana
- L.A. Care Health Plan
- Molina Health Plan
- SCAN Health Plan
- UnitedHealthcare
AppleCare is committed to helping you help your patients. Here are some of the features that your patients can enjoy by being a patient of an AppleCare physician:

- **$0 Co-pay immediate care centers**: Member exclusive urgent care centers located near partnered hospitals.

- **Care management**: A team that works with patients, their families and their doctors to develop a care plan that supports their medical and social needs.

- **Hospital and discharge**: Members receive support from AppleCare physicians at the hospital and specialty clinics when they are discharged.

- **Supportive care and hospice**: Members have access to an additional layer of specialized medical care for when diagnosed with serious illnesses.

- **Senior care**: We understand the unique challenges that seniors face in getting access to good health care benefits and medical services. Here are some of the advantages that seniors have by being AppleCare patients:
  - Senior wellness exams and preventive care
  - Nursing home care
  - Diabetes program, CHF remote monitoring, and COPD care
  - Care management
  - Home visits
  - Direct access to specialist program

- **Specialty clinics**: We also have an extensive specialty network and have specialized clinics available in areas such as:
  - Coumadin
  - Comprehensive care
  - Diabetic
  - Urgent care
